What We Are Learning

Language Arts

We practiced reading and spelling words with silent letters wr, kn, and gn. We read stories about weather and discussed cause and effect. In grammar we learned about special pronouns. We also learned to use commas in dates and in letters. Our main selection this week was Rain School.

Math

We discussed the attributes of 2-dimensional shapes. We then used pattern blocks to combine 2-D shapes to make other 2-D shapes. We defined 3-dimensional shapes by their number of edges, vertices, and faces or flat surfaces. We discussed the attributes of 3-D shapes.

Religion

We learned that Easter is a season of new life in Christ. We celebrated the Resurrection of Jesus. We have completed and reviewed Unit 4 in our religion books. We have worked hard to prepare for our Mass on Friday. If your schedule permits, please feel free to join us.

Science

In science we began our unit on Rocks and Soil. We learned that rocks can be described by their properties, such as color and shape. We found out that rocks are made of minerals. We read how people use rocks for many things. We celebrated Earth Day by discussing reducing, reusing, and recycling to help protect our planet.
