What We Are Learning

Language Arts

We have spent the week reading bear stories. We read both fiction and non-fiction stories about Teddy Bears and real bears. Our favorite was Corduroy. We reviewed nouns, prepositional phrases, silent letters, main idea, opinion writing, and other language arts concepts.

Math

This week we worked on Topic 12 - Measure Lengths. We compared objects and ordered them by length. We used cubes and paper clips to measure length and height of objects. On Friday, we will use our Teddy Bears to help us sort, make patterns, and graphs.

Religion

We learned that at Mass we remember the Last Supper. We remember and do what Jesus did at the Last Supper. The Eucharist is the Sacrament in which we receive the Body and Blood of Christ.

Science

In science we learned some interesting facts about brown, black, grizzly, sloth, and polar bears. We watched several short clips to view real-life bears in their habitats.
