What We Are Learning

Language Arts

We read many more ocean animal stories. We read about several different kinds of sharks. After some research, we wrote reports about our favorites. We compared and contrasted whales and fish. We reviewed antonyms and synonyms.

Math

This week we compared and ordered objects by their weight. We also compared and ordered objects by their temperature. We used time to describe different activities. Finally, we found the value of a collection of pennies, nickels, and dimes.

Religion

We learned that God's laws help us live as children of God. We read that the Great Commandment tells us to love God above all else and to love others as we love ourselves.

Science

We observed several objects and compared them to determine whether they would sink or float. We had fun learning about plants and animals that live in an ocean habitat. We studied fish, sharks, whales, dolphins and more. We enjoyed handling and examining some real ocean creatures.

Have a happy and safe summer!

Vocabulary Words

ocean
shell
starfish
shark
whale
fish
octopus
dolphin
